

**Positive Training**

### Consent

Developing Emotional Intelligence in Puppies (DEIP) is the company that runs 'Positive Puppy Training'. During your relationship with DEIP, it is important that we have your consent to keep your personal data on record. If we do not have this then we cannot proceed with treatment.

Please be aware that we are a teaching veterinary practice and this means that there might be a student at your appointment or on the course. Students observe sessions but do not offer advice or opinions. Our top priority is the welfare of your pet, so if we feel that it is not suitable for a student to be there then we will not bring them or ask them to leave if necessary.

During appointments, we take videos and pictures. This allows us to discuss your case internally at our clinical meetings and also, where applicable, with other professionals, to make sure that your animal has the best care possible. In any other instance, we will get your consent.

I confirm that I have read and understood this letter and will comply with the requests contained within it.
